WATER AND ENERGY CONSERVATION

_____ is excited to offer the **Conservation Made Easy Fundraiser**. This fundraiser is all about the environment and conserving water and energy. Students will sell products that teach about the importance of conservation while earning us a 40% profit on all sales. Did you know an average a household could save as much \$396.00* annually when purchasing just 4 Compact Fluorescent Light Bulbs (CFLs) and 1 conservation shower head. Please support this very important fundraiser by offering these great products to your family members, friends, neighbors and co-worker's.

Conservation Facts

Compact Fluorescent Light Bulbs (CFLs) use 75% less energy and produce 90% less heat!

Only 1% of the earth's water is available for human consumption

One conservation shower head can save 23,000 gallons of water per year.

CFLs last 10 times longer than incandescent bulbs.

* Estimate based on purchase of four (4) CFLs and one (1) 1.5GPM conservation showerhead. CFL use was assumed at 4 hours per day and showerhead was assumed at three (3) six (6) minute showers per day. Utility rates used were \$.09 for electricity and \$4 per thousand gallons for water and sewer.
